## 2-Day Workshop:

### **Natural Vision Improvement & Self-Healing Through Movement (June 11-12, 2023)**

This June, take the opportunity to nurture yourself wholly and deeply, consciously and lovingly. Become a true self-healer: a person who accepts his/her own body and mind (no matter what condition it is in), and properly takes care of it, allowing healing and growth. We have the tools for you to wisely begin this self-healing process.

**(Pay ₪1,100 until June 11)**

## 5-Day Workshop:

### **Coach & Mentor Training Class (June 18-22, 2023)**

If you are already practicing the principles laid down in the book *Vision for Life*, this class will help you learn to help others experience the benefits you have seen on your own vision journey. It is up to the individual to take responsibility for their eyesight, and this class is dedicated to showing you how to teach others to do just that.

**(Pay ₪2,800 until June 18)**
